Define Fraud ...

... is generally defined in the law as, an intentional misrepresentation of a material existing fact made by one person to another, with the knowledge of its falsity, and for the purpose of inducing the other person to act, and upon which the other person relies, with resulting injury or damage. Fraud may also be made by an omission or purposeful failure to state material facts, which nondisclosure makes other statements misleading. (Source: uslegal.com)

  - Use common sense

- Slippery slopes
- Ever changing & dynamic
- Crooks are creative!!!!
How We Wish Things Were
How They Probably Really Are
Underwriting & Sales

- LTD - Age 70 EE becomes age 20
  - Poor “penmanship”
  - Case underwritten & issued
  - Billing get updated & “corrected” > issue
  - Underwriting “renewal” every 2-3 years
    • Error discovered
    • Past contestability period
    • No claims
    • OK to renew & adjust premium
Underwriting & Sales …

- Experience Data re: premium & claims
  - Excel file not write protected
  - Competing Group Rep “massages data” & turns loss ratio from 150% to 70%
  - Underwriter prices it based on 70%
  - Case sold to the group
  - At Renewal
    - Must have been a bad year
    - Huge rate increase
Underwriting & Sales …

- Agent submits case 2 days after effective date (not unusual in small group market)
- Calls every 2 hours to verify approval by Underwriting
- Apps look OK to Underwriting assistant & e-mails agent
- Agent calls – screaming that owner’s daughter at pharmacy waiting to get Rx filled for Diabetes!
- Nothing disclosed on application
Underwriting & Sales …

- Underwriting call Dr. office – diabetes?
- Dr. office has lots of pages of notes that Agent called re: the owner’s daughter medical condition

Underwriting & Sales …

- Major carrier – **Group Reps Create Agency**
- Salaried Group Reps sold directly; or, taking over Broker of Record
  - Commissions paid to created agency
  - Group Reps split up commissions

  - P.O. Box is only address

  - All group reps were terminated

- Brokerage relationships that had “lost” the business with fraud were restored.
Underwriting & Sales …

- Major carrier – Dumbest Award Contract!
- Competitors were offering plans that excluded organ transplants except for heart, liver & lung
- They wanted to do the same & company said no (their plan covered all other organs – eyes, kidney, etc.)
  - Company did not file contract forms with State of Virginia + others for approval
- Compliance Dept. request copies of contacts for a client from Sales Office
Underwriting & Sales …

- Contract Dept. sends official copy of group policy contract that includes all organ transplants
- Group Reps had cut & paste (literally) paper into group policy limiting benefits
  - Used typewriter to create new language
  - Photocopied several times to try to hide evidence
- Benefits based on official contract
- Sales team skated & finger pointed
  - Secretary left holding the bag
Underwriting & Sales …

ERISA creates personal liability for fiduciaries. This places the fiduciary’s personal assets (house, cars, bank accounts, etc.) at risk. In Baker v. American Mobile Power Corp., the court held an individual personally liable for losses to a plan, and stated, “While we are not unsympathetic to his burden, we note that fiduciaries may be insured for this type of liability. It would appear that prudent fiduciaries would have their plan or employer’s secure such insurance.”
