Albany Chapter ISCEBS  
Cybersecurity Considerations for Employee Benefit Plans  
March 20, 2018 (Tuesday)

Attend to earn two (2) CEBS Continuing Professional Education (CPE) Credits

With cyber data breaches regularly in the headlines, many organizations are focusing on cybersecurity. But, in many cases, the organization may not have considered the cybersecurity risks for their benefit plans. In the administration of employee benefit plans, plan sponsors and service providers are handling electronic records with personally identifiable information (PII) and protected health information (PHI) that could be prone to a cyber breach. Now is the time to focus on protecting the cybersecurity risks specific to your benefit plans. Please join us for a panel discussion on developing a cybersecurity strategy for your plans.

**Panelists:**

**Mike Billok, Member, Bond Schoeneck & King, PLLC**

In addition to his labor and employment practice, Mike co-founded the firm's cybersecurity and data privacy practice. Mike advises employers on the overlap between cybersecurity and data privacy and employment issues, including privacy of employees, as well as the large impact of employees on cybersecurity and data privacy issues.

**Lisa Christensen, Senior Counsel, Bond Schoeneck & King, PLLC**

With an emphasis on HIPAA/HITECH, and state data security laws, Lisa assists group health plans, hospitals, physician practice groups, business associates and other clients with state and federal data privacy and cybersecurity matters. Her counsel includes compliance, training, implementation of policies and procedures, investigation and mitigation of breaches (including drafting required notifications), on-going oversight and, risk management.

**Rick Comeau, Senior Manager, Grant Thornton LLP**

Rick is a Senior Manager and cybersecurity leader in Grant Thornton's Public Sector Risk Advisory Services practice. He is responsible for enterprise and operational cybersecurity assessments, policy, guidance & procedures development, and IT risk management for public sector clients, particularly State & Local governments.

**Scott L. Patashnick, Network Support Specialist, Milliman, Inc.**

Scott is a network consultant for Milliman, Inc., supporting their New York network operations. His work includes drafting, implementing and monitoring cybersecurity policies and procedures, as well as working with client auditors to complete RFPs, RFQs, security questionnaires, SSAE-16 and SOC audits. Scott additionally provides technical support on network and telecom infrastructure; maintains and tests disaster recovery, business continuity, emergency and notification plans; and supervises cybersecurity training for Milliman staff.
