AEGIS RISK LLC

Aegis Risk is a specialty employee benefits consulting firm and broker focused on medical stop-loss and critical illness coverage for large employer benefit plans.

Our in-depth knowledge on these “low frequency but high exposure” benefits exceeds that of most advisors, who cover them only occasionally. We obtain the greatest value for our clients on these benefits, while their primary broker or consultant remains focused on the rest.

Core services include benefit design and carrier selection, where our focused expertise saves clients hundreds of thousands in premiums. On stop-loss, we provide ongoing claims monitoring and reimbursement filing, providing peace of mind in using a carrier external to a TPA or health plan. Assistance with self-funded medical plan rate projections can also be provided.

We also conduct an annual Medical Stop Loss Premium Survey—the only survey focused exclusively on employer premiums. Visit our Web site for survey highlights and submission details. All respondents receive a FREE copy of the results.

Contact us today to discuss key coverage issues and strategic solutions. We partner with employers, as well as other consultants and brokers.
